About Astana

Astana is the capital city of Kazakhstan. In 2017, the estimated population of Astana was about 10 lakh people. The city was modernised by the Japanese architect Kisho Kurokawa who designed the master plan for Nur-Sultan. His designs are based on unconventional Eurasian style reflecting the cultural traditions of both the East and the West. It is home to many futuristic and contemporary buildings, hotels and skyscrapers.

In Astana, the summers are long, comfortable, and partly cloudy. The winters are long, frigid, windy, and overcast; and it is dry year round. Over the course of the year, the temperature typically varies from -20.55°C to 26.11°C and is rarely below -31.11°C or above 32.77°C .
