

# Kyiv Medical University - Study Culture

**Kyiv Medical University**, MBBS in Ukraine, not only uses all the traditional processes of imparting education as in classroom discussions, lectures, seminars, consultation classes, workshops, practical training, individual works and projects but also tries to achieve maximum efficiency out of these processes with a low teacher/student ration generally 1:12, weekend consultations enabling students to clarify their doubts in any discipline, discussion groups, licensing exams targeted training, etc.

Lectures are the primary form of training sessions which are intended to impart theoretical know how of the discipline with the use of the lecturer's experience in the subject as well as modern multimedia presentations.

Practical classes are more specific in their approach and have been designed to discuss the topic presented in the lecture of a particular discipline at length along with its practical implications and to develop the ability to use the knowledge presented in the lecture in a practical scenario. This form of training includes training with the cadavers, and various experiments whatever required.

Seminars are another form of training sessions where input of fellow colleagues in forms of debates and discussion is organized under watch of an expert medical teacher to instill confidence of each participant in the topic and to come up with as many questions as possible to have the in depth knowledge of the subject.
