About OLFU

Our Lady of Fatima University, formerly known as Our Lady of Fatima College, and also formerly known as Fatima Medical Science Foundation, Incorporated (FMSFI) is a private university in the Philippines. It has three main campuses, one based in Valenzuela City, the other in Quezon City, and the third in Antipolo, Rizal. The university concentrates mainly on allied medical sciences. Its name was derived from The National Shrine of Our Lady of Fatima or Pambansang Dambana ng Birhen ng Fatima (in the Tagalog language) near the Valenzuela campus, but is not affiliated with the Catholic Church, and welcomes students of all faiths.

History

In 1979, Dr. Santos and his wife, Mrs. Juliet Olivares-Santos, a chemical engineer, pursued the vision of Mr. Olivares by constructing a modern school building and upgrading the Our Lady of Fatima Hospital to a five-storey and 150-bed tertiary hospital in preparation for the opening of the Fatima College of Medicine. In June 1979, the Fatima College of Medicine welcomed its pioneer batch of medical students with Dean Filemon T. Gozum, M.D. at the helm of the academic program. Underscoring its civic and humanitarian calling, the Fatima Medical Science Foundation Inc., established the Leonora Juzgaya Scholarship Grant, which bestows free tuition, board and lodging and textbooks to financially challenged but academically gifted medical students.

Through the years, the Our Lady of Fatima University has responded to the rapid changes in medical science and technology and the social milieu through constant modernization of its facilities and continuing development of its faculty. As a testimony to its outstanding academic program, the Fatima College of Medicine opened its doors and accommodated hundreds of foreign students across the globe. In response to the emerging need for globalization in medical education, affiliations, and clerkship trainings at the Brooklyn Hospital Center, Peninsula Hospital Center in New York, Jackson Park Hospital in Chicago, and Harbor Hospital in Baltimore, all in the United States of America; and SIN-LIU Christian Medical Center, Yuan's General Hospital, Cathay General Hospital, Tuig's Metro Hospital, Taichung Veteran's Hospital, Taipei University Medical Center, and Yang Ming City Municipal Hospital in Taiwan were made.

OLFU's College of Medicine is fully accredited by the Association of Philippine Medical Colleges and is ranked 2nd in the Philippine Review Committee (as per 1996 - 50 to 100 graduates). We are listed in the World Health Organization Geneva of Recognized Medical Schools.

Academics

COLLEGE OF NURSING

Nursing graduates of OLFU are one of the most sought after professional here and abroad. Needless to say, it is a distinction we have earned from our almost 30 yrs of excellence in educating healthcare practitioners. As one of the nation's premier universities, OLFU prepares students with knowledge and competencies necessary to meet the increasingly complex healthcare needs of society today.

We have been consistent topnotchers in the Nursing Board Examinations for the past 3 years. OLFU's intensive and extensive clinical experience sets our graduates apart from the rest. We give students valuable opportunities to apply their knowledge and skills at the Fatima Medical Center, the University's teaching tertiary hospital. Our Virtual Laboratory provides advance learning facilities and ensures an excellent learning environment. The College's curriculum integrates review programs for examinations necessary for employment in the U.S.: TOEFL and CGFNS (Commission on Graduates of Foreign Nursing Schools).

OLFU's College of Nursing is the first NCR nursing program to be accredited Level III by the Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA) in educating healthcare practitioners. As one of the nation's premier universities, OLFU prepares students with knowledge and competencies necessary to meet the increasingly complex healthcare needs of society today.

FACILITIES

- Virtual Laboratories
- Hospital Environment Simulators
- Access to Fatima University Medical Center and other partner institutions

INDUSTRY PARTNERS

- Beijing Dongfang University
- Bethune Medical College
- Dahlian Medical University, China
- Qiqihar Medical University, China
- Wiki International Training Center

HIGHLIGHTS

- Center for Development (CHED)
- First NCR institution to achieve a Level III Re-Accredited Status (PACUCOA)
- Accredited for International Employment in USA, UK, Middle East and other Countries
- Constant Top Rankings in Nursing Licensure Exams, PRC (July 2011 NLE - Top 5 & 6)

COLLEGE OF MEDICINE

PROGRAM OFFERINGS

4 Year Doctor of Medicine (MD)

The Fatima College of Medicine is one of the Philippine's most distinguished centers for medical education. Constantly responding to the rapid changes in science, technology and the social environment, Fatima fulfills its commitment to produce competent, world class medical practitioners. It strives to create the best environment for students to master the principles and theories of medicine and obtain sufficient knowledge and experience to launch into a successful practice. Its the first and only Philippine medical school to have an institutional clerkship program with a foreign hospital. In fact, the University has sent over 100 medical students for clerkship training at the Brooklyn Medical Center and Peninsula Hospital in New York and Jackson Park Hospital in Chicago. Thus, creating career opportunities abroad for young men and women. In its almost more than 40 years of existence, Fatima has graduated more than 30,000 medical and allied medical health practitioners from all disciplines. Proof that makes Fatima a valuable contributor in the development of the medical and paramedical professions in the Philippines and abroad. The Fatima College of Medicine is housed in five buildings where you'll find the school's lecture halls, seminar and conference rooms, research and teaching laboratories, classrooms, amphitheater, library facilities with audio visual monitors, administrative offices of the departments and parking space.

The College has the latest sophisticated medical laboratory equipment that meet the standards of the Board of Medical Education. Also, it has a computer laboratory equipped with internet access to facilitate research work and networking of all medical students. All these are put in place to ensure that students have all the necessary tools for learning within their reach.

CURRICULUM

- New Innovation comes with new Outcome-Based programs and the horizontal-vertical integration of basic subjects with clinical co- relation.
- Balance of lecture hours and clinical hours where students are exposed to real cases
- Competency based with problem oriented approach
- Traditional didactic/ Laboratory sessions are retained
- Students are given time for each subject devoted to self-directed learning activities and discussions

ACCREDITATIONS AND ACHIEVEMENTS

- Fully accredited by the Association of the Philippine Medical Colleges
- Listed in the World Health Organization Geneva Recognized Medical Schools
- Fatima has an ongoing Clerkship Program with the Harbor Hospital in Baltimore and Jackson Park in Chicago, USA
- Accredited by the Illinois State Board of Education
- Accredited by the New York State Board of Education
- Recognized by the California Quality Health Assurance
- Competent Alumni placed in key hospitals in the Philippines and Abroad
- Garnering topnotchers in the Physician's Licensure Examinations Philippines (Top 2,3,4,7,9 in February 2011 PLE)

Academics

COLLEGE OF DENTISTRY

Our Lady of Fatima University's leadership in education reveals itself in each of its institutions. In 1999, the College of Dentistry garnered a 100% passing mark in the Dental Licensure Examinations. An outstanding achievement made greater by a repeat performance in 2000 when they again garnered a 100% passing rate. The pre-clinical laboratory houses full-class dental training simulation phantom units designed to help students gain full working knowledge and manual skills prior to treating live patients. The clinical operatory has provisions for fully automated professional dental chairs and delivery units for the actual management of pre-screened cases. You'll also find an isolated operatory for the management of clinical cases with high teaching and learning values. It is equipped with a closed circuit audio-visual documenting unit that simultaneously projects actual procedures in the different lecturing and operatory areas.

Access to cutting-edge equipment and facilities gives the Fatima student a clear advantage. The College features facilities for didactic lectures, clinical seminars, pre-clinical laboratory and clinical operatory works. The College of Dentistry implements one of the more innovative competency-based dental curriculum. The College includes curricular enrichment such as Pedagogy and Perspective in Dentistry; and is the first to offer Infection Control, Conscious Sedation and Forensic Dentistry as separate curricular offerings. A unique element of the program is the inclusion of veni-puncture exercises that allow students to acquire the competency to do intra-venous infusion of medication and sedatives. Access to cutting edge equipment and facilities give the Fatima student a clear advantage. The Colelge features facilities for didactic lectures, clinical seminars, pre-clinical laboratory and clinical operatory works.

OLFU's College of Dentistry is recognized as the Top Performing School by PRC and has garnered 100% passing marks in the Dental Licensure Examinations in the past years. It has an ongoing 5-yr Memorandum of Agreement with the Hong Kong University Faculty of Dentistry; and an International Agreement of Cooperation with Kanagawa Dental College of Japan.

ACCREDITATIONS AND ACHIEVEMENTS

- PACUCOA Accredited
- ISO 9001:2000 Accredited for Higher Educational Institution
- ISO 9001:2008 Certified Standards for Educational Institution
- Recognized as one of the Top Performing Dental Schools for the past 14 years by the Board of Dentistry of the PRC for exemplary school board performance.
- Institutional Member of the South East Asian Association for Dental Education
- Dean Arturo De Leon, DMD, founding Dean of the College of Dentistry - Elected president of South East Asian Association for Dental Education and Philippine Dental Association

FACILITIES

- Pre-clinical laboratory with full class dental training simulation phantom units designed to help students gain full working knowledge and manual skills
- Clinical Operatory with fully automated professional dental chairs and delivery units for the actual management of pre-screened cases
- Isolated Operatory equipped with closed circuit audio-visual documenting units that simultaneously projects actual procedures in the different lecturing and operatory areas

INDUSTRY PARTNERS

- Chiang Mai University, Faculty of Dentistry - Hong Kong University, Faculty of Dentistry - International School of Cambodia
- Kanagawa Dental College of Japan

Academics

COLLEGE OF HOSPITALITY AND INSTITUTIONAL MANAGEMENT

The College offers two baccalaureate courses namely: A Ladderized Program for the Bachelor of Science in Hotel and Restaurant Management and Bachelor of Science in Travel Management. IN 2007, to keep abreast of the changing developments in the field of hospitality, the College changed its name to College of Hospitality Management.

BS in Hotel and Restaurant Management was first offered in 1995 and was housed in one of the Nursing buildings at the Main Campus along McArthur Highway in Valenzuela City. In 1998, in response to the call of globalization and better equip its students, the College sent its senior students abroad for their practicum --- thus joining the International Practicum Training Program. The following year, in December of 1999, CHED granted the College its recognition.

The clamor to provide quality training for its students paved the way to try other forms and venue. On-board training became a means to meet the required practicum hours for the senior HRM students. Thus, the 1st On-Board training was held in 2002, aboard Superferry. In 2005, the College applied for PACUCOA accreditation and in 2007, the College was granted Candidate Status by the PACUCOA.

BS in Travel Management is a newly opened course under the College of Hospitality Management and was offered in 2007-2008, with an initial population of approximately 85 students. OLFU is the only University in Valenzuela to offer the course. The College opened the Course in response to the growing tourism industry in the Philippines and other countries.

The College, with its increasing student body, was moved from the Nursing Bldg to Dr. VM Santos Bldg in 1996. In May of 2007, the College found its home in the newly constructed San Lorenzo Bldg, a 5-floor building at Serrano Street, Marulas, Valenzuela. The new facility showcases cutting edge kitchen equipments, appliances and hotel amenities; and spacious and well-ventilated rooms. In 2011, CHIM revealed it's new Kitchen Auditorium to better demonstrate and teach new culinary techniques. All programs are available in all three OLFU locations, with complete facilities for each campus

FACULTY

The OLFU CHIM Faculty members are notable professionals in the field of hospitality and tourism industry. They are recognized in their fields of profession nationally and globally. Their commitment to excellence is evident in active professional careers enhanced by strong academic preparations. They were given constant professional development, with programs that make them become more effective providers of learning. They are members of accredited industry organization such as AAHRMEI, COHREP, UFTE and NDAP. They were also able to win awards from different prestigious national competition like COP and NFS.

FACILITIES

Students experience all aspects of hotel operations, food and beverage service management. CHIM has provide a fully equipped mini hotel with a reception area and housekeeping area. Sustaining the enhancement of skills in food and baking production, generous hands-on experiences are provided in well ventilated food laboratories. A beverage laboratory with a functional bar is also provided for hands-on learning on various beverage preparation and service techniques.

HIGHLIGHTS & ACHIEVEMENTS

The different programs under the College of Hospitality & Institutional Management were accredited by the Philippine Association of Colleges and Universities Commission on Accreditation (PACUCOA) and Association of Christian Schools, Colleges and Universities (ACSCU), are organizations certified by the Federation of Accrediting Agency of the Philippines (FAAP), is responsible for accrediting educational institutions. Recently, the College was certified by the American Bureau of Shipping (ABS) as ISO 9001: 2008

- Accredited Level I Status , PACUCOA
- Accredited Status, ACSCU
- Certified by FAAP
- ISO 9001: 2008 Certified
- Conducted social events/ records that highlight the community (Ex. Longest Putong Pulo and Longest Antipolo Suman to name a few)
- Culinary Awards in Chefs on Parade 2011
- Community-involved programs

Academics

COLLEGE OF CRIMINOLOGY

Intellectually challenging, advancing criminology research and processes. The College empowers men and women to explore their interests and ideas, allowing them to experience the thrill and excitement of discovering new processes and methods to advance the practice of criminology and its allied fields. OLFU College of Criminology consistently provides above average passing rates in local licensure examinations. It is the leading Criminology School in the CAMANAVA area equipped with complete Police Science Laboratory Facilities and Digital Polygraph Machine.

The main programs of study in the college is geared towards careers in scientific crime detection, police administration, criminal justice system administration, correctional and jail management system and penology. It aims to arm its students with the knowledge and technical skills that will help them successfully practice law enforcement and contribute to the criminal justice system with the end objective of enhancing public safety and security.

The ever-growing college works hand-in-hand with its alumni and faculty to further strengthen the Criminology Program. Through the alumni, faculty and industry partners, the student gets exposed to work scenarios and real-life accounts and experience based learning.

CURRICULUM

The Bachelor of Science in Criminology program is designed to provide students with knowledge and skills in the study of historical and contemporary patterns of crime, causes and the processes involved in solving crimes and the function of the criminal justice system in the country.

The BS Criminology program is a four year program. The students have to undergo internship/on-the-job training and community immersion for one semester during their fourth or senior year in the program.

CAREER OPPORTUNITIES

There are many career options available for Criminology graduates. They can be geared towards professional services for upholding community and societal justice. Or even focus on to investigation and detective work. To name a few career options available:

- Police Officer, Criminologist, Crime Sociologist, Law Enforcement Administrator, Correctional Administrator, Fire Officer, Security Professional, Criminal Investigator, Intelligence Officer, Private Detective, Sea/Air Marshall, Signature Verifier

INDUSTRY PARTNERS

- Professional Criminologists Association of the Philippines (PCAP)
- Philippine Educators Association for Criminal Education (PEACE)
- Bureau of Jail Management and Penology
- Local PNP chapters

Academics

COLLEGE OF MARITIME STUDIES

In October 1996, the College of Maritime Education was established in Maysan Road, Valenzuela City to accommodate students in the CaMaNaVa area and other neighboring cities and towns in Bulacan and Pampanga. Spearheading this was Dr. Vicente Santos, St., Dr. Juliet O. Santos, Capt Hermogenes Bitanga, 2/O Ariel Macute and Engr. Thadeus Jovellanos.

In April 2000, the College was certified by the American Bureau of Shipping (ABS) to ISO-9002:1994; the College was also accredited with 100% passing mark on BSMAT and BSME Evaluation. Again, on December 2006, the ABS issued the College a Certificate of Conformance as set for the by ISO 9001:2000.

The College's facilities and equipments meet international standards like well equipped simulation rooms, RADAR/ARPA and GMDSS Simulators, Mock Bridge with complete Electronic equipment an Navigational aids, Seamanship laboratory with complete Seamanship tools and paraphernalia, Boiler system and Marine machineries and auxiliaries.

At present, our graduates are reaping their professional success of being employed on board international vessels, passing the entrance examination given by the different respected shipping companies and manning agencies with flying colors.

FACILITIES & HIGHLIGHTS

- RADAR/ ARPA - World-Class Bridge Simulator (GMDSS - POSEIDON SYSTEM) - Seamanship Laboratories (fully equipped with tools)
- Boiler System - Marine Machineries/ Auxiliaries - ISO 9001: 2008 Certified - Accredited by Maritime Industry Authority
- Accredited by the American Bureau of Shipping - Recognized by the Professional Regulation Commission
- Member, Philippine Association of Maritime Institutes Inc.

*Important Note: Maritime Education is only currently offered in the Valenzuela City Campus

Academics

COLLEGE OF PARAMEDIC

Fatima's Paramedic diploma program gives you a solid grounding in the knowledge and skills needed for this intense, fast-paced profession. Learn how to effectively deal with medical and traumatic emergencies through practical courses in paramedical science; human anatomy, physiology and psychology; pharmacology; patient lifting and transfer techniques, and rescue procedures. Your in-depth paramedic training will also include instruction in the communication skills needed to interact with patients and to collaborate with colleagues in a health-care team.

Learn about the various contexts in which paramedics work and put classroom concepts to use through two clinical practice courses, which will expose you to the role of paramedics in a chronic care setting, and in hospital departments such as acute and emergency care. Two field internships will give you first-hand work experience on an ambulance service as you evaluate and treat patients under the supervision of a paramedic preceptor.

MASTERS IN PUBLIC HEALTH

Our MPH programme gives you a thorough understanding of all the main disciplines of public health, providing a strong basis for a high-level career in the field. The core modules cover epidemiology and qualitative research methods, including the application of appropriate study designs, their critical appraisal and the essential principles and procedures for ethical practice. You personalise your Masters through a wide range of electives from Health Impact Assessment to Health Promotion, from Environment and Health to Public Health Nutrition.

In addition to the subject matter knowledge you gain, you will develop additional cognitive, team, communication, research, ICT, numeracy and project planning skills that are eminently transferable within the sector. You will complete your programme with a dissertation based on your own original public health research guided by an expert in your chosen field.

MASTERS IN BUSINESS ADMINISTRATION

Fatima's MBA programs (Master In Business Administration) enable you to earn a high level, specialist qualification, acquiring a skill set and expertise that could benefit you in any business environment. These degree programs will prove invaluable to anyone wishing to succeed in the world of business, and will enable you to gain both the skills and knowledge to perform effectively in a cutting edge business environment. With this sort of qualification you can look forward to a rewarding career, a good salary, and a challenging and interesting role with great promotional prospects.
